ALERTS

Provides Speed, Geofence, Ignition ON/OFF, Towing, and Low Battery alerts.

WATER & WEATHER PROOF

Designed to tolerate even the most extreme conditions.

BATTERY LIFE

Optional backup battery. Super-low power consumption gives the backup battery extra long life.

GEO-FENCES

Map out key zones to monitor, triggering alerts if zone boundaries are crossed.

Matrack Client Reviews

“Excellent product for the price.”

Charlie W.

Business Owner: Automotive, 1-10 employees, Used the software for : 2+years

Overall:

Very Satisfied, good and reliable unit

Pros:

Multiple devices for various applications. easy install. inexpensive.

Switched From:

Verizon Connect Work

Reasons for Choosing Matrack GPS:

Price point and willingness to work with a small business. no buy in

Overall Rating

- Ease of Use ★★★★★ 5/5
- Customer Service ★★★★★ 5/5
- Features ★★★★★ 5/5
- Value for Money ★★★★★ 5/5
- Likelihood to Recommend ★★★★★ 5/5

“Very easy to use”

Art K.

Investigator: Security and Investigations, 1-10 employees, Used the software: 2+ years

Overall:

Only complaint is when I do have an issue with the tracking device stalling in place and there was an indication that the vehicle was moving (in place for more than 30 minutes or longer) and needed to be reset was that the help desk not responding in a very timely manner. Maybe because someone is not monitoring the help request 24/7. My vehicles could be out anytime including late nights or early mornings.

Pros:

Very easy to use and maintain for daily activity reports.

Overall Rating
